PROFILE

Front-end focused Full Stack Engineer with solid experience building interactive and responsive web applications using technologies like React and JavaScript. Familiar with backend development using Node.js and Express, and continuously expanding full stack capabilities. Strong eye for UI/UX, performance optimization, and delivering clean, maintainable code in collaborative environments.

WORK EXPERIENCE

Zero By Zero Creative

2024 AUGUST - PRESENT

Full Stack Developer

- Migrated a React application to Next.js, improving performance and enabling server-side rendering (SSR) for better SEO and load times.
- Rebuilt the UI using shadcn/ui and Tailwind CSS, creating a consistent, modern design system with reusable components.
- Integrated backend APIs and optimized data fetching using Next.js features, enhancing both developer efficiency and user experience.

Unicorn Technology Pvt. Ltd.

2024 FEBRUARY - 2024 AUGUST

Front End Developer

- Developed and deployed web features using Next.js, React.js, and Vue.js, ensuring enhanced project efficiency and scalability.
- Actively participated in Agile/Scrum development cycles, including daily stand-ups, sprint planning, and retrospectives, and managed project deployments to servers..

Hunchha Digital

2022 DECEMBER - 2024 JANUARY

React Developer

- Contributed to web application development using React, gaining hands-on experience and establishing a strong foundation in front-end technologies.
- Assisted senior developers in troubleshooting and debugging code, ensuring smooth project execution and engaging in code reviews to uphold best practices and coding standards..
